To whom it may concern:

I am pleased to write this recommendation letter for Ms. Aditi Padhi, who recently completed our MBA program. In her two years in the program, she completed 76 credits (only 64 were required) with a special interest in Real Estate and Sustainability, building on her background in Architecture.

Ms. Padhi was an enthusiastic learner who took advantage of the many experiential learning opportunities that came her way. She was enrolled in Consulting Field projects in both Real Estate and in Sustainability that provided her with experience in campus redevelopment projects at Brandeis University. She also collaborated with industry giants on three sustainability field projects, namely SustainServe, Switzerland, social entrepreneurship with Skandia Bank, Sweden, and in real estate development, through the Boston Improvement District.

Always with extra energy, Ms. Padhi also participated in a Study Abroad semester at the Copenhagen Business School in Denmark, where she focused on Corporate Sustainability and Clean Energy.

Ms. Aditi was a pleasure to work with and to get to know. As a student, she always showed a curiosity and motivation that was admirable. I am confident that she will be an enthusiastic and energetic contributor to any organization that is fortunate to hire her.
